Dealing with Skin Cysts
Skin cysts typically require no treatment if they pose no issues.

However, intervention might be advised under certain circumstances, like:

DR . POOYA BEIGI
ERROR - FREEMEDICINE

Having an infected skin cyst,
where antibiotics may be
prescribed.

**Dealing with a sizable,
painful cyst that
disrupts daily life;**

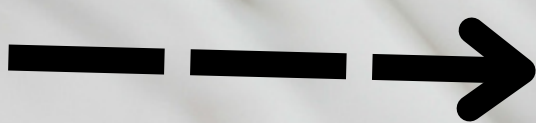

for instance, a head cyst causing
discomfort during hair brushing.

CAUSES OF SKIN CYSTS

DR. POOYA BEIGI
ERROR - FREE MEDICINE

SKIN CYSTS CAN DEVELOP IN ANYONE, AND THEIR EXACT CAUSES ARE OFTEN UNCLEAR.

You might have
a higher chance
of getting a skin
cyst if:

DR . POOYA BEIGI
ERROR - FREE MEDICINE

- A family history of cysts, with a notable emphasis on pilar cysts
- **Advancing age, particularly during middle adulthood.**

- Female gender

DR . POOYA BEGI
ERROR - FREEMEDICINE

- Presence of acne
 - Occurrence of rare conditions, such as Gardner syndrome.
